ENVIRONMENTAL POLICY

As Öztiryakiler, we undertake;

- To comply with all legislation related environmental management,
- To decrease negative environmental effects at the source, to prevent environmental pollution and to continuously improve by monitoring environmental management performance,
- To carry continuous studies in the sustainable use of energy and natural resources and to protect the environment,
- To develop the environment-friendly applications and practices in the design, production, sales and after-sales activities starting from the selection of the input materials which form our products,
- To care attention in decreasing the negative environmental effects in the life cycle of our products,
- To create a continuous improvement point of view at all stages of the environmental management system,
- To raise awareness and encourage our employees to be environmental volunteers in all areas of life,
- To care environmental management system practices sustainable by sharing them transparently with all our stakeholders.

Chairman of the Board of Director
